THE BOOT BOOK

2017

OUR NEXT GENERATION OF BOOTS

SCHNEE'S IS PROUD TO INTRODUCE five new members of our Schnee boot family, together with a series of enhancements and refinements to our legendary boot collection for Fall 2017. As always, the introduction of our new boots this Fall is the culmination of years of work and rigorous testing. Our standards are high, our specifications are exacting.

Unlike most boots in hunting, Schnee boots are not mass produced. We hand craft each pair with care and precision, either in our Bozeman factory, or in our factory in the Italian Alps, using only the finest materials and based upon state of the art engineering. We have a very simple mission: to provide the world's most discerning customers with only the very best. For us that means the highest quality, longest lasting, best value, best fitting and best performing boots available anywhere in the world. With the introduction of our new boots this season, we believe we have taken the Schnee boot family once again to the next level of leadership.

This ambitious endeavor has been a labor of love for us at Schnee's. It is the most exciting new collection in the 71-year history of our company.

From all of us at Schnee's, we hope and trust that you will love our new family of Schnee boots as much as we do.

We rate our boot flex on a scale from 1 to 4, with 1 being the most flexible and 4 being the most rigid. All of our mountain boots are built upon our proprietary, multi-component, fully engineered chassis system. Pictured here are images of Schnee's full length nylon and fiberglass Flexplates™, which are integral elements of our industry-leading boot chassis systems.

THE GUTS OF A SCHNEE'S BOOT: OUR INDUSTRY-LEADING TECHNOLOGY

WHAT MAKES SCHNEE'S THE BEST IN THE FIELD?

The answer is lots of things, some of them pretty technical. One critical difference that distinguishes a Schnee's boot is largely invisible to the eye. We call it our chassis system.

Each chassis inside a Schnee's boot consists of three main components: **1.** our full-length, engineered Flexplate™, **2.** our dual-density midsole, and **3.** our outsole. Schnee's boot chassis systems are designed, engineered, and meticulously constructed to provide the optimal balance of our ultimate performance matrix: stability, durability, comfort, traction, and fit. This involves using only the best materials together with the best engineering and workmanship.

Schnee's boots proudly feature the OutDry® waterproof-breathable technology.

BOZEMAN

WINKLER EVO

All serious hunters know the importance of traction. At Schnee's, we are obsessed with it. Schnee's is proud to partner with Vibram® to produce the highest traction, longest lasting, and best performing outsoles in the world. Each outsole is engineered to work in harmony with the midsole and insole of our chassis system to provide the optimal foundation for each member of the Schnee's boot family.

SCHNEE'S BEARTOOTH II

EXCELLENCE IMPROVED

NEW SCHNEE'S BEARTOOTH II™

It is not easy to improve upon excellence, but we think we have done it with our Beartooth II. Schnee's Beartooth has become a sensation in hunting since we introduced it several years ago. It is the go-to boot of choice for hunters seeking a boot with maximum versatility, that will take them from the heights of sheep hunting to the uplands of pheasant hunting and everything in between. Our New Beartooth II features an enhanced chassis system, dual-density midsole, new OutDry waterproof-breathable technology, improved hardware, and superb leather. Available either with 200 gram Primaloft insulation, or uninsulated, our new Beartooth II is a number 2 Flex, on the more flexible end of the scale, but with all the guts you need for your most demanding hunting situations. • Italy.

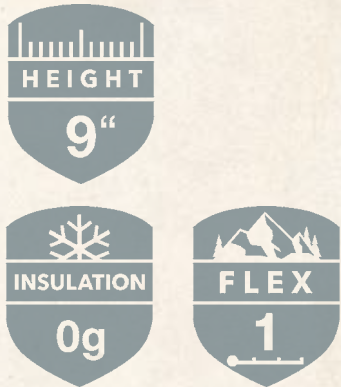

TSAVO

Brown/Rock (uninsulated). 3lbs 15.2oz. 9" height.
Brown/Loden (insulated). 3lbs 15.6oz. 9" height.
Medium sizes 7-12, 13, 14, 15. Wide sizes 8-13, 14.

SCW-911 \ \$389 (uninsulated)
SCW-912 \ \$399 (insulated)

WELCOME TO THE TIMBERLINE

SCHNEE'S NEW PACESETTER

NEW SCHNEE'S TIMBERLINE™

The mountain boot for your next light and fast adventure. We have taken the core features of our legendary Beartooth™ collection and dialed back the rigidity for a smoother and more flexible ride.

- A great early season choice, non-insulated.
- New Vibram Circuma outsole with open and opposing height lugs for maximum traction on lighter weight outsole.
- 100% waterproof with OutDry technology • Italy.

CIRCUMA

Quarry/Black. 3lbs 13oz. 9" height.
Medium 8-12, 13, 14. Wide 8.5-13, 14.
SCW-913 \ \$379

SCHNEE'S PROUDLY INTRODUCES OUR NEW MISSION SERIES BOOTS

NEW SCHNEE'S MISSION™

The epitome of your perfect box to trail boot, versatile with nearly no break-in. 8" rough-out leather and fabric upper provides a comfortable fit for a day hike or a week long trek on the trails of the high country. Ideal for bow season and your early season hunts. New Vibram Winkler Evo outsole features the perfect lug design, excellent traction, and anchors our Schnee's multi-component chassis. Uninsulated.

- 100% waterproof with OutDry technology • Vibram Winkler Evo outsole
- 8" rough-out leather and fabric upper. • Italy.

WINKLER EVO

Charcoal/Green. 8" height. 3lbs 14oz.
Medium 8-12, 13, 14.
SCW-905 \ \$369

NEW SCHNEE'S MISSION VT™

The pinnacle boot of our new Mission series. The Mission VT embodies all of the features you will need for adverse conditions, in steep terrain, and under heavy loads. This fully rigid boot will give you firm footing on steep rocky slopes. Mission VT is a lower height construction for those who prefer this hiker construction to the taller, full leather designs of Teton and Granite Pro. Uninsulated.

- Fully rigid with crampon compatibility • 100% waterproof with OutDry technology
- Vibram Teton outsole for maximum durability and traction
- 8" rough-out leather and fabric upper. • Italy.

TETON

Charcoal/Orange. 8" height. 3lbs 14oz.
Medium 8-12, 13, 14.
SCW-905 \ \$399

THE NEW GENERATION OF GRANITE IS HERE!

NEW SCHNEE'S GRANITE VI™

For those ultra-cold hunting situations we are proud to bring you our NEW Granite VI™, including all the same premium features of Schnee's popular workhorse Granite™ boot now with 600 gram Primaloft™ insulation.

- 10" tall super thick 2.8mm leather uppers provide unsurpassed ankle support.
- Polyurethane midsole – don't settle for poor performance substitutes.
- Guaranteed 100% waterproof. OutDry® membrane. • 600g Primaloft™ insulation. • Italy.

TSAVO

Black/Quarry. 10" height. 4lbs 5.6oz.
Medium 8-12, 13, 14, 15. Wide 8.5-12, 13, 14.
SCW-800 \ \$499

NEW SCHNEE'S GRANITE II™

Built to withstand serious abuse in the toughest terrain, it's not uncommon for a professional guide to cover thousands of miles and millions of vertical feet on their Granite's. Strategically outfitted with a Schnee's exclusive custom rubber Vibram Tsavo outsole.

- Upgraded heavy duty easy roller hardware • Yukon 2.8mm wax leather
- Dual density polyurethane midsole with enhanced rear foot stability.
- Guaranteed 100% waterproof. OutDry® membrane. • 200g Primaloft™ insulation. • Italy.

TSAVO

Yukon. 10" height. 4lbs 5oz.
Medium 7-12, 13, 14, 15. Wide 8-12, 13, 14.
SCW-901 \ \$489

SCHNEE'S NEW PINNACLE ALPINE SERIES

GRANITE PRO

NEW SCHNEE'S GRANITE PRO™

Taking our famous Granite to new heights, our Granite Pro is built for the serious adventurer. Similar to our Teton boot, Granite Pro is made uninulated based upon the design and last of our über-popular Granite boot line. For serious mountaineering, fully crampon compatible, 9" height made with one-piece full grain upper, our new Granite Pro is made to give you the maximum performance you need when you get into the toughest of spots.

- 2.8 mm full-grain leather • 100% waterproof with OutDry technology
- Vibram Teton outsole for traction and maximum durability • Fully rigid Crampon compatibility. • Italy.

TETON

Black. 9" height. 4lbs. 10oz.
Medium 8-12, 13, 14.
SCW-902 \ \$499

NEW SCHNEE'S TETON™

Designed and crafted in our Italian factory for heavy loads, steep and rocky terrain, and crampon compatibility, the harshest mountain terrain is home for our new Teton boot. Schnee's Teton features a traditional one-piece rough-out leather upper, unique one-piece Swiss tongue, and OutDry waterproof technology, all built upon Schnee's proprietary inner chassis system on top of our Vibram Teton outsole. The Teton outsole is extremely durable with a deep lug design, toe bar for edging, and a deep heel for descents.

- Fully rigid Crampon compatibility • 400 gram Primaloft Insulation • 3lbs 15 oz.
- 100% waterproof with OutDry technology • Vibram Teton outsole for traction and maximum durability. • Italy.

TETON

Forest. 9" height. 4lbs. 8.4oz.
Medium 8-12, 13, 14.
SCW-903 \ \$469

BEARTOOTH MID

SCHNEE'S BEARTOOTH™ MID

Our Beartooth Mid™ is an uninsulated, lightweight mountain boot with exceptional support without unnecessary weight. 6" premium 2.6mm leather uppers provide plenty of ankle support and protection from rocks and brush while our OutDry waterproof technology keeps you dry and comfortable.

- Ultra-breathable, exceptional comfort, warmth, and support.
- Guaranteed 100% waterproof with OutDry® technology. • Italy.

TSAVO

Brown. 6" Height. 3lb 6oz.
Men's Medium 8-12, 13, 14. Wide 8-12, 13, 14.
SCW-811 \ \$369
(Non-Insulated)

ABSAROKA

SCHNEE'S ABSAROKA™

Our Absarokas are made for backpack hunting, extended hiking in very rugged, rocky terrain, and similar conditions when you need your boots to be the very best available for the job.

- Uninsulated with a chassis, midsole, outsole, and upper spec similar to our Granite Boot but with more flex.
- Guaranteed 100% waterproof with OutDry® membrane. • Italy.

TSAVO

Brown. 6" Height. 4lbs.
Men's Medium 8-12, 13, 14. Wide 8-12, 13, 14.
SCW-807 \ \$399

OUTLOOK

NEW SCHNEE'S OUTLOOK

A perfect companion for warmer days on or off trail, the 8" tall Outlook features OutDry waterproof construction. Schneer's high-traction Vibram Tsavo outsole, engineered full length nylon chassis midsole. You will appreciate the comfort and durability of our new Outlook boots on rugged terrain and longer treks.

Uninsulated. • Italy.

TSAVO

Brown. 8" height. 3lbs. 9.5oz.
Medium 7-12, 13, 14. Wide 8-12, 13, 14.
SCW-830BRN \ \$339

6 INCH BOZEMAN EVO

BEST-IN-CLASS DURABILITY AND COMFORT

NEW SCHNEE'S BOZEMAN EVO

An update to a Schneer's classic, we think that our new Bozeman EVO will rapidly find a cherished place in your boot cabinet. The improved sole system is designed to provide best-in-class support, durability, and comfort. Our premium pebble grain leather and Cordura upper is designed to maximize breathability in a boot of this construction.
